

PERSONALIZATION

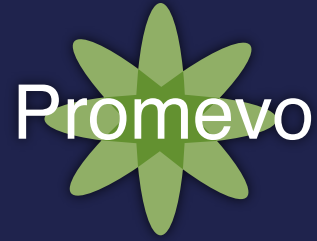

Promevo's product is service. An expert staff, including active owners, works to foster long term, value-added business relationships that evolve with clients' needs.

EXTENDED VALUE

Promevo's goal is not to push software and equipment purchases. It is to extend the value of clients' technological investments by turning hardware and software into efficient technology systems.

RELATIONSHIPS

Promevo works with clients to understand their technologies and to provide solutions that are truly tailored to improve their business processes.

innovative technology solutions

We're not **just** the techs that come in,
work alone, and then are never seen again.

We **build** relationships with our clients.

2006 IBM Beacon Award: Best of IBM SMB Business Partner Teaming

Recognized as having "set the standard for business excellence, unique solutions for On Demand Business, ingenuity, and customer satisfaction" by IBM.

2007 Fast 55 Recognition

Named as one of
Greater Cincinnati's 55
fastest-growing companies.

Our Services

Based on a client's unique environment, our technology-agnostic team works with clients to define a strategy, identify issues and objectives and then to detail the scope of the project

We recommend project-based consulting, expert staffing, or a hybrid of both. Our expert staff then leverages software solutions on schedule and on budget until project completion.
